Elli Petersen-Pik	South				✓		✓	✓	✓	✓	✓	I support a *voluntary* significant tree register for private land. I studied the issue of climate change in my Masters of Environment (from the University of Melbourne). I agree the issue needs urgent action, although wouldn't personally choose to use the phrase 'climate emergency', as it can be polarising.

Giorgia Johnson	West		✓	✓	✓	✓	✓	✓	✓	✓	✓	To mitigate urban heat island effect and protect threatened birdlife I will move to protect trees on private land. To reduce Greenhouse gases I will support composting of organic waste.
