I have experience in Economics, senior Council finance role and seek representing the 75% of population in the ward which are Christian. I’m standing for more green spaces, solar energy, community power, ecological sustainability, ethical governance, heritage and affordable housing.

1 In 20 words or less, describe why are you standing for (re)election to council?

2 Do you agree with climate scientists who tell us that:

2a the Earth is already too hot?

Its a warming cycle but no evidence it is permanent warming. There was an ice in the middle ages for 150 years which obviously resolved without human intervention. at this stage the evidence suggests this will self resolve also.

2b we face a climate emergency?

No

2c greenhouse gas emissions must be reduced to zero within a decade, not decades?

The earth survived hundreds of volcanos releasing emissions - zero emissions is illogical.

2d we must begin to draw down excess carbon dioxide already in the atmosphere until we restore a safe level?

Yes

3 Are you supportive or in opposition to the Adani coal mine in Queensland?

I oppose it

3a Will you publicly state this position in your election campaign?

Yes

4 If elected will you:

4a educate municipality residents and stakeholders about the climate emergency?

I will educate residents about climate and environmental sustainability

4b put pressure on other levels of government to act?

Yes

4c initiate and support council measures to rapidly reduce the municipality’s emissions towards net zero and draw down carbon dioxide?

Yes
