1	In 20 words or less, describe why are you standing for (re)election to council?	I want to see an end to the corruption and nepotism that exists in our 'amalgamated' council.	I'm concerned that our council is not attending to the needs of the vulnerable members of our community, and that there is little commitment to meeting the demands of climate change.	I act independently and reasonably, and can effectively listen to, understand, and balance the interests of all stakeholders.

CLIMATE SCIENCE

2	Do you agree with climate scientists who tell us that:			
2a	the Earth is already too hot?	The earth is reaching extremes of Hot and Cold.	Yes	No - The question is too general to be meaningful
2b	we face a climate emergency?	Humans and animals do, the planet doesn't actually care.	Yes	No - The question is too general to be meaningful
2c	greenhouse gas emissions must be reduced to zero within a decade, not decades?	We can't do it within a decade, lets not set unreasonablele goals.	Yes	No - This is an impossible target
2d	we must begin to draw down excess carbon dioxide already in the atmosphere until we restore a safe level?	Not just carbon dioxide, we must reduce all levels of Biosphere affecting chemicals and gasses.	Yes	Not sure - The question is too general to be meaningful

CLIMATE ACTION

3	Are you supportive or in opposition to the Adani coal mine in Queensland?	I oppose it	I oppose it	Not sure - The question is too general to be meaningful. I am not an expert in this field.
3a	Will you publicly state this position in your election campaign?	Yes	Yes	No - The question is too general to be meaningful. How is this relevant to the election here? Please do not use my

	First and last name	A Thaler	Castellari	Maria Lionkenbagh
				answers to boost any other agenda.
4	If elected will you:			
4a	educate municipality residents and stakeholders about the climate emergency?	Yes	Yes	No - This will not be my role. I will discuss these issues as and when it may be appropriate to do so.
4b	put pressure on other levels of government to act?	Yes	Yes	No - This will not be my role. I will discuss these issues as and when it may be appropriate to do so.
4c	initiate and support council measures to rapidly reduce the municipality's emissions towards net zero and draw down carbon dioxide?	Yes - of course, I operate a LOT of SolarPV.	Yes	Not sure - The question is too general to be meaningful.
4d	initiate and support measures to protect vulnerable people and ecosystems within the municipality from dangerous climate impacts?	Yes	Yes	Not sure - The question is too general to be meaningful.

CLIMATE EMERGENCY PETITION

5	Have you signed or would you like to sign the Climate Emergency Declaration?	No - I don't believe it is an 'emergency'.. but urgent action is required.	I will sign it	No - I am wary of what use my response may be put to.
